## 2D / 3D ARTIST

Carbonated Games - El Segundo. Help create game assets by modeling, texturing, rendering and lighting them in engine. Help create modern marketing materials (animated gifs, memes, 3D paintovers, etc.). Collaborate with designers and community growth managers to attract and increase our player base. Give and receive constructive and creative feedback across art disciplines. As a 3D artist you can model anything and everything. Since we're still growing, we need someone who can make the world, character, textures and when done, light and animate the whole scene! You might wear many hats, but at the end of the day, you're a doer, like us. You've spent hundreds of hours honing your artistic skills - degrees are nice but portfolios speak volumes. You're at your best when working with others. You're not afraid to speak up, take critique, or push for and take ownership of something you passionately believe in. You're someone who wants to take creative risks and enjoys solving problems. You're a passionate gamer yourself and understand how the aesthetic and fiction of a game can be just as impactful as the core game loop. You enjoy playing games when you can. Be able to render scenes for marketing, advertising & social media using our in-game assets & cleanup (do some paint overs) in Photoshop. Strong sense of lighting, composition, color & layout. Pose characters, layout scenes, light & render strong single images that help sell our game. Create high quality renders using Maya Arnold, Blender cycles or Marmoset. Make animated gifs for ads using rendered out layers, logos & other graphic elements. 3+ years of 3D modeling (low poly, high poly, normal map extraction). You have professional experience in a game engine like Unreal or Lumberyard. Strong organic and hard surface modeling/texturing skills. Ability to create efficient in-game geometry & textures with clean topology. Ability to transform concept art or reference photos into a high quality 3D model. Experience texturing in Substance Painter/Designer or similar programs. Experience creating PBR materials. Desire to improve and grow yourself and continually hone your skills. Ability to own a project from beginning to end. Proficient in Agile/Scrum development. You enjoy playing games when you can.

**Send your resume and cover letter to our posting!**
