

**JOB DESCRIPTION**

<b>Title: QA Inspector</b>
<b>Location/Division: Teletronic</b>
<b>Shift: 6:00Am-2:30PM or 7:00AM-3:30PM</b>
<b>Rate of Pay: \$15/hr-\$20/hr</b>

DCX-CHOL Enterprises Inc. is a leading source for engineered MIL/AERO high performance interconnect products. We design, engineer, and produce cable assemblies, wire harnesses, conduit assemblies, custom connectors, etc. We are made up of seven vertically integrated manufacturing and assembly divisions, each with their own history, specializations and products.

Teletronic Division of DCX-CHOL Enterprises is currently seeking an experienced full time Quality Inspector with the following qualifications and experience:

**RESPONSIBILITIES:** Perform in-process and final inspection of division products to determine conformance to specified requirements. Perform quality verification of purchased materials. Perform first article inspection and record inspection results in accordance with established procedures. Review product manufacturing and quality records to verify completeness and acceptability. Input inspection results data into electronic database. Identify, segregate and document nonconforming material. Interface with customer source inspectors and coordinate product acceptance. Perform other inspection duties as assigned.

**EXPERIENCE / KNOWLEDGE REQUIRED:**

- Must have advanced ability to read drawings, specifications, acceptance test procedures.
- Knowledge of connectors, electro-mechanical products and related manufacturing processes.
- Visual and mechanical inspection methods.
- Hands-on inspection experience using measurement devices such as microscope, calipers, micrometers and various basic measurement equipment.
- Performance of first article inspection/test and data recording.
- Familiar with Aerospace industry documentation, such as AS9100 inspection forms and standard military specifications
- Workmanship standards per IPC/WHMA-A-620, IPC-A-610 and J-STD-001 experience desired.

**QUALIFICATIONS:**

- Minimum of 2 years of experience in inspection of precision machined parts, mechanical assemblies, and plating.
